THE JOHN CASTAÑO HONORARY MEMBERSHIP AWARD

Call for Nominations for 2019

Deadline: May 31, 2019

TSOP members are invited to nominate the scientist of your choice for the 2018 John Castaño Honorary Membership Award, The Society for Organic Petrology's highest honor. The award acknowledges distinction in a scientific discipline of significance to the Society, in recognition of contributions in research, service to TSOP, or education. The John Castaño Honorary Membership Award conveys life membership in the Society. It is named in honor of John Castaño, one of our most active Houston-based founding members. John served as inaugural Vice-President, and later, as President of TSOP. He was an organizer of three TSOP meetings in the Houston area, and was made an Honorary Member in 1995. John served TSOP in many capacities until his death in 1997; a memorial article was published in the June 1997 issue of the TSOP Newsletter.

The nominees' research, service and educational impact will be evaluated based on the following criteria:

1. Research contributions include work that demonstrates a high degree of originality and serves to advance the science of organic petrology or related disciplines. Nominees must possess a sustained international record of professional publication and achievement.

2. Nominees recommended for service must demonstrate significance contributions to TSOP (the Society) in a leadership role. Their service must have enabled the Society to stimulate interest and promote innovative research in coal geology. Contributions include educational activities, administrative duties, or the development of the Society.

3. Nominees recommended for education must demonstrate a high degree of dedication and significant impact as a teacher of organic petrology or related disciplines.

If you would like to nominate a candidate for the 2019 Castaño Honorary Membership Award, please submit a letter of recommendation and a brief vita of the nominee to Dr. Paul Hackley at phackley@usgs.gov, Chair of the Committee by May 31, 2019. It is strongly suggested that supporting letters of recommendation from colleagues and other scientists accompany the nomination package. Emphasis should be placed on the significance of the nominee's research and contributions.

Nominations will be reviewed by the Castaño Award Committee and results will be announced at the Annual Meeting to be held in Bloomington in September 2019. The selection process is confidential and nominees do not have to be former or current TSOP members.

THE DISTINGUISHED SERVICE AWARD

The Distinguished Service Award recognizes the contributions of members who have provided distinguished service to TSOP as a Society, typically in committee or elected Council positions, over multiple years. This is distinct from contributions to the science through research or education, which TSOP recognizes through The Castaño Award. A list of previous Distinguished Service Award winners is available on the TSOP website.

If you know of a TSOP member who you think deserves a Distinguished Service Award, please send your nominations to Thomas Gentzis at Thomas.Gentzis@corelab.com.
